Special Focus	Alternative Feedstocks / Biofuels	Materials Manufacturing	Clean Fuels	Petrochemical Technology	Maintenance and Reliability	Process Optimization
Scope	Liquefied natural gas (LNG), natural gas liquids (NGL), non-crude feeds: algae, fats, seed oils, biomass, wood, coal	Component manufacture for process equipment, construction materials to handle corrosion, erosion, vibration and temperature	Transportation fuels with lower ppm sulfur, constrained select aromatics/olefins, higher octane/cetane, lower engine particulates (soot)	Technology used in manufacture of petrochemicals from refined liquids or treated gases	Asset integrity systems to maintain process equipment, monitoring and prediction tools that sustain reliability	Review of existing processes for improved yield, higher quality, better efficiency or lower impurities/byproducts
Regular Features	Process Control & Instrumentation	Process Optimization	Terminals & Storage	Process Engineering	Process Control & Instrumentation	Process Control & Instrumentation
	Heat Transfer	Maintenance & Reliability	Fluid Flow & Rotating Equipment	Heat Transfer	Fluid Flow & Rotating Equipment	Process Engineering
	Process Engineering	Water Management	Maintenance & Reliability	Environment & Safety	Heat Transfer	Maintenance & Reliability
	Catalysts	Environment & Safety	Water Management	Catalysts	Water Management	Catalysts
Bonus Reports	Industry Leaders' Forecast 2018	LNG Developments	Instrumentation & Analyzers*	ACHEMA Preview	IRPC Europe Preview	ACHEMA Issue
	Catalyst Technology Update*	Pumps & Valves Marketplace	HP Workforce	Maintenance & Turnarounds*	Engineering & Construction*	Process Capabilities*
Distribution		NACE Corrosion (Phoenix)	AFPM International Petrochemical (San Antonio)	OTC (Houston)		ACHEMA (Frankfurt)
	EGYPS (Cairo)	AFPM Annual (New Orleans)	EMGC (Nicosia)	ACHEMA (Frankfurt)	AFPM Reliability and Maintenance (New Orleans)	Global Petroleum Show (Calgary)
	GPA Annual (Austin)	ARC Manufacturing (Orlando)	Asia Turbo & Pump (Singapore)	API Spring Refining (Seattle)	International Liquid Terminals Association (Houston)	MIOGE (Moscow)
	ARC Manufacturing (Orlando)	CIPPE (Beijing)	Middle East Sulphur (Abu Dhabi)	GPA Annual (Austin)	IRPC Europe (Milan)	World Gas Conference (Washington DC)
Signet Ad Effectiveness Survey	Worldwide			Worldwide		
		East Africa Oil & Gas (Nairobi)	NISTM (Orlando)	MCAA Industry Forum (Atlanta)	AICHE Natural Gas (San Antonio)	Global Petroleum Show (Calgary)
				AICHE Spring Meeting (Orlando)		

*bonus report with opportunity to supply corporate/product profile

The Digital Refinery	Fluid Flow & Rotating Equipment	Refining Technology	Plant Safety and Environment	Instrumentation & Automation	Plant Design, Engineering & Construction
Digital systems to manage operations such as supply and logistics optimization, feed characterization, asset monitoring and, advanced control	Solutions to fluid flow problems; best practices and case studies related to pumps, valves and compressors	Technologies used to make fuels, lubes, waxes, asphalt, coke or petrochemical feedstock from crude oil	Safety and environmental issues, services and products	Instrumentation hardware used to manage, analyze and control operations; automation software	Design, engineering, fabrication, construction and commissioning of process plants
Industrial Internet of Things (IIoT)	Process Control & Instrumentation	Process Optimization	Process Control & Instrumentation	Process Engineering	Process Control & Instrumentation
Fluid Flow & Rotating Equipment	Heat Transfer	Heat Transfer	Process Engineering	Fluid Flow & Rotating Equipment	Heat Transfer
Catalysts	Maintenance & Reliability	Catalysts	Maintenance & Reliability	Water Management	Process Optimization
Environment & Safety	Water Management	Environment & Safety	Catalysts	Environment & Safety	Maintenance & Reliability
