2018 Petrochemical Processes Handbook

Relied on by Engineers and Petrochemical Industry Professionals Throughout the World

The world is witnessing a surge in new petrochemical capacity additions. These investments include processing capacity for the production of basic and specialty chemicals. For more than 65 years, the Petrochemical Processes Handbook has been a definitive resource for processing technologies used in the global petrochemical industry. This well-resourced handbook contains flow diagrams and detailed descriptions for more than 200 leading-edge, licensed petrochemical technologies. Featured technologies cover ammonia, aromatics, butane-1, cumene, ethylene, ethylene oxide, ethylene glycol, hexene-1, methanol, mixed xylenes, paraxylene, polyethylene, propylene, polypropylene, PET/PTA, styrene, urea and xylene, among others.

Each process description includes a flow diagram, along with application, process description, yields and product quality, economics, commercial plants in operation, and contact information for each process’s licensor.

The Handbook has been specifically designed to provide engineers and petrochemical professionals with job-related technical information that they can quickly reference at any time.

Please refer to the back of this sheet for additional information to place your order.

Available December 2018

Please contact your Hydrocarbon Processing representative for additional information.

HydrocarbonProcessing.com
Premier Sponsors of *Hydrocarbon Processing’s* Petrochemical Processes Handbook

- Recognition on *Petrochemical Processes Handbook* summary page in *Hydrocarbon Processing* December 2018 as premium sponsor with logo
- Logo on USB card sleeve under Premier Sponsors
- Logo on splash screens under Premier Sponsors
- Active link from logo to website
- Listing of all processes from sponsor in Handbook
- Posting at HydrocarbonProcessing.com for three years
- Five articles from *Hydrocarbon Processing*, or articles or papers from conferences, to be selected by sponsor for inclusion on USB card
- 50 copies of USB card for sales and marketing purposes

_This is a non-exclusive sponsorship. Cost: $6,900* gross._

- Recognition on *Petrochemical Processes Handbook* summary page in *Hydrocarbon Processing* December 2018 as sponsor with logo
- Logo on USB card sleeve under Sponsors
- Logo on splash screens under Sponsors
- Active link from logo to website
- Listing of all processes from sponsor in Handbook
- Two articles from *Hydrocarbon Processing*, or articles or papers from conferences, to be selected by sponsor for inclusion on USB card
- Posting at HydrocarbonProcessing.com for three years
- 25 copies of USB card for sales and marketing purposes

_This is a non-exclusive sponsorship. Cost: $5,900* gross._

*On-demand printing of Handbook or additional USB cards can be provided at an additional cost.

**Closing date for sponsorships is September 1, 2018**

**Sponsorships are secured on a first-response basis, and are limited.**

Please indicate below your preferred sponsorship.

This is to confirm that __________________________ (company) will serve as a sponsor for the *Hydrocarbon Processing* Petrochemical Processes Handbook on USB card to be published in December 2018.

**Sponsorship Preference:** □ Premier Sponsor  □ Standard Sponsor

I understand that Gulf Publishing will bill: □ My company  □ My agency
